BOOKINGS OPEN WORLDWIDE

Playing for the soul.

Distorted Memories is a DJ and producer from India, behind the decks since 2016. His style of mixing takes a crowd on an emotionally melodic journey, then raves harder on the dance floor. A carefully chosen song selection is what makes his sets soulful. He doesn't just push knobs when he plays: he plays with raw emotion and creates memories for the audience, giving them a musical high.

His EPs and singles are out on Bullfinch Records, Superordinate Music, Oxytech Limited, Hexagonal Music and more, and he keeps producing new music. His tracks have been played on radio shows across the globe.

He aspires to perform at venues around the world, taking the crowd higher and higher, and has already played rooms across India. Bookings are open worldwide for club nights, festivals, private events and corporate events.
